INTRODUCTION

EA SPORTS™ proudly presents *Madden NFL 2000*.

You're "in the game" with a Madden-style of in-your-face, smash-mouth football. With faster gameplay and improved graphics, *Madden NFL 2000* picks up right where last season's award-winning game left off. Big plays, big emotion and, as always, big hits—that's what Madden Football is all about.

Madden NFL 2000 features lightning fast gameplay, with a faster frame rate and faster player moves. Another new feature is the all-new Arcade mode that delivers helmet-popping hits and incredibly fast juke and spin moves for amazing arcade-style action and over-the-top plays.

Madden NFL 2000 also features tons of new animations with new celebrations and taunts, breakable wrap tackles and gang tackling.

MADDEN BOWL™ – How does a major league baseball player get to play in the Super Bowl? Well, anything can happen in the Madden Bowl. Each year, the annual Madden Bowl video game tournament features the top NFL stars against celebrity Madden players. Competitors will fight it out for bragging rights and the honor of being immortalized in Coach Madden's game. Last season, Derek Bell of the Houston Astros reached the championship game, before falling to Ray Mickens of the New York Jets. Madden Bowl 2000 will be held during the week of Super Bowl XXXIV in Atlanta. For more information, go to www.easports.com and follow the links to the Madden Bowl website.

For more info about *Madden NFL 2000* and other titles, check out EA SPORTS on the Web at www.easports.com.

CONTROL STICK FUNCTION

The Nintendo® 64 Controller contains a Control Stick which uses an Analog system to read the angles and direction of its movement. This allows subtle control that is not possible using the conventional + Control Pad.

When turning the Control Deck power ON, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the picture on the left) when the power is turned ON, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its center position (as shown in the picture on the left) then press **START** while holding the **L** and **R** buttons.

The Control Stick is a precision instrument, make sure not to spill liquids or place any foreign objects into it.

STARTING THE GAME

1. Turn OFF the POWER switch on your Nintendo® 64 Control Deck.
WARNING: Never try to insert or remove a Game Pak when the power is ON.
2. Make sure a Controller is plugged into controller socket 1 on the Control Deck.
3. If you're playing against a friend, plug the other Controller into controller socket 2.
4. Insert the Game Pak into the slot on the Control Deck. Press firmly to lock the Game Pak in place.
5. Turn ON the POWER switch. After the EA SPORTS screen, the *Madden NFL 2000* Main menu appears. > *Main menu* on p. 6. If you don't see them, begin again at step 1.

COMMAND SUMMARY

NOTE

The Control Stick functions identically to the Control Pad throughout all menus and gameplay.

NOTE

The Z and L buttons activate the same actions during gameplay.

NOTE

The Rumble Pak™ is compatible with *Madden NFL 2000*. If the Rumble Pak is not inserted when the game begins, you must activate the Rumble Pak from the Controller Select screen from the Pause menu. > *Pause menu* on p. 15.
